Details Profile

Craftsman Profile

Executive Profile

BELMONT FIBERGLASS DOOR SERIES

- A Grain** Multiple grain options are available in fiberglass – smooth, oak, mahogany and rustic textures. Belmont's ultra smooth finish features a unique brush stroke surface that's ideal for painting.
- B Durability** Top and bottom rails are constructed from rot free composite material.
- C Security** Door stiles are constructed with engineered 2" laminated strand lumber (LSL) hinge, and 4" LSL latch stiles.
- D Panel Profile** Belmont features distinctive and deep high definition moulded door panels.
- E Construction** Polyurethane foam core combined with engineered wood used in stiles provide superior insulation value and structural integrity.

Smooth Grain

Oak Grain

Mahogany Grain

Rustic Mahogany

Lock Side 4" Stile

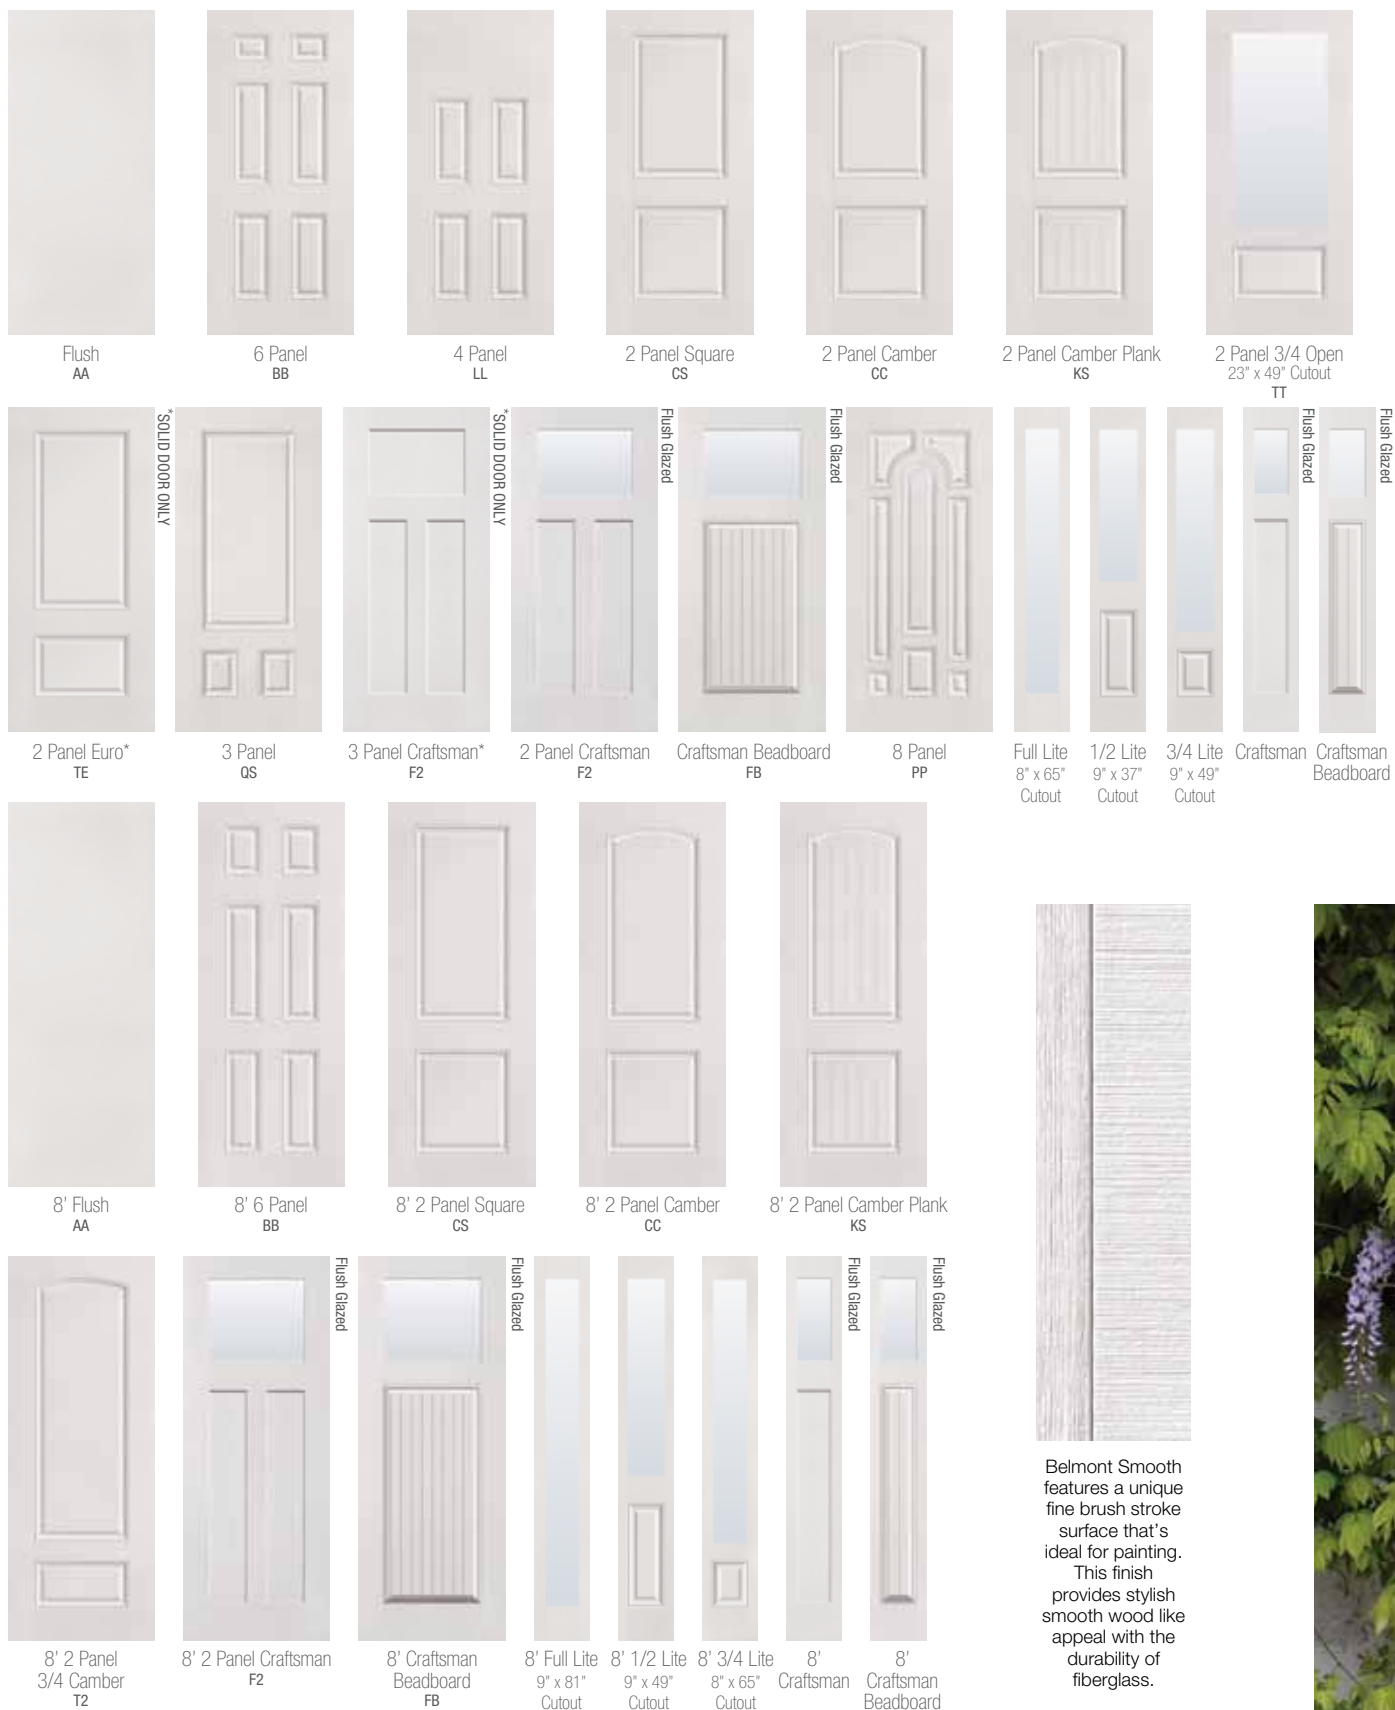

Hinge Side 2" Stile

Stiles constructed from LSL material are stronger and more rigid than traditional wood stiles or laminated veneered lumber (LVL). The patented LSL manufacturing process creates a door stile that resists bowing and warping.

Extensive style, deep panel designs, selection and grain texture options make the Belmont an ideal choice for any entrance. This 100% North American product mimics the grain, texture and construction of a handcrafted hardwood door. Molded fiberglass skin, and polyurethane foam core will provide superior thermal performance, strength and durability.

Composite Rails

The rails are made out of rot free composite material.

Stronger Stiles

LSL is engineered wood that is free of knots or inconsistencies found in other wood products. The patented manufacturing process increases product strength while resisting bowing, twisting and shrinking.

Resource Efficient

LSL uses 99% aspen and 1% birch trees. Our LSL technology is independently certified to the Sustainable Forestry Initiative® (SFI) Standard and conforms to the ISO14001-2004 Environmental Management System Standard. LSL does not contain formaldehyde-based adhesives.

4" and 2" stile shown.

Clavos are hand forged from metal to create an authentic old world look that enhances the appearance of the rustic door.

CRAFTSMAN GALLERY

- A Door Series** Expanded door series offerings, reflecting the ultimate in both selection and finishes – Steel Mark® and Belmont®.
- B Clean Panel Profile** Panels are distinctive with a variety of styles to choose from.
- C Dentil Shelf** Dentil shelves are available; designed specifically to complement each door series.
- D Glass Designs** Extensive choice of glass designs; enhancing the Craftsman or Mission charm.

Steel Mark®

Belmont® Smooth

Belmont® Mahogany

Craftsman style emerged from the arts and crafts movement celebrating the individual worker, craftsmanship and designs that complemented natural materials. Clean lines are striking and glass playfully invites light into the home adding a finishing touch with character, charm and distinction.

TRU VIEW®

RAISE LOWER & TILT MINI BLINDS

- A Blind Mechanism** Blind mechanism designed with style and functionality in mind.
- B Interior Blinds** Raise Lower & Tilt Mini Blinds are fitted between the glass. Blinds can easily be adjusted to allow just the right amount of light, so you can enjoy privacy without the cleaning.
- C Low-E** All designs feature Low-E, reflecting heat back to it's source, maintaining a comfortable environment, protecting against and reducing UV fading of nearby furniture or drapes.

FERCO G-U MULTI-POINT LOCKING SYSTEM

3-POINT SECURITY AUTOMATIC DOOR LOCK

European technology in a North American Lock. By simply closing the door, the upper and lower 3/4" latches will instantly engage. Engaging the 1" deadbolt by turning the key from outside or the knob from inside, will block the top and bottom latch bolts, to make it a secure 3-deadbolt locking system!

VENICE LOCKSETS

PREMIUM MULTIPPOINT LOCKSETS

These larger multipoint faceplates are designed to enhance the beauty of any entry door.
